

Theme Brief

An eclipse happens when a planet or a moon gets in the way of the Sun's light. Solar eclipse opens the portal for new beginning and change however a lunar eclipse reveals energies that help us complete a journey or shift our course in some way. Basically this theme is all about light & dark.

For me moon symbolize mystery, energy and cyclical change. The moon is a powerful influence on human emotions. The moon is one of the brightest object in the night sky, and its presence has inspired wonder in me. Its changing appearance, from the thin crescent of a new moon to the full and bright face of a full moon adds to its mysterious allure. That's why moon is strong for me.

Sun represent the happiness and warmth. Sun is another version of happiness. When clouds of thoughts, worries, desires gives hard time we have to scatter and dissolve them to experience the happiness like sun dissolve the cloud or storm to shine. That's the reason sun is feminine and moon is masculine for me.

Sun and moon's different shapes represents the meaning of this theme. Solar and lunar has been seen as a disruption of the natural order. Our lives are filled with both bright & shadow. The theme symbols are being used as motif, embroidery. It's a new style & comfort of a modern fashion.
